EXPERIENCE

PSH - WEAREPSH.COM

During my firsts months at PSH, I was part of a Mobile front-end development team where I worked with react-native as main tecnology.

Later, I occupied the role of UI / UX designer for differents Web and Mobile Apps user interfaces that other team was going to develop later.

Currently, after working for more than 1 year as Frontend Developer, I am also a Frontend + Markup lead and Team leader in a Front-End team with many Front-End Development project. In the assigment I employ first level working methodologies and tools. Some projects i worked on has approach to more than 1 million of daily users in the USA and around the world.
